Issue No. 01 Rev. No: 02 Effective Date: 17.10.2017 SOP/MEC/024

**Issued By: M.R**Approved By: HOD-Mechanical

### RABH BAG REPLACEMENT.

**Scope:** To replace RABH bag Responsibility: Engineer/SH

#### PPE:

- 1. Safety helmet
- 2. Safety shoe
- 3. Mask
- 4. Safety goggles
- 5. Gloves

#### **TOOLS:**

- 1. Screw driver
- 2. spanner set
- 3. 24v lamp
- 4. Crow bar
- 5. Nylon rope

#### **Hazard Analysis:**

<u>Risks associated:</u> <u>Mitigating Measures</u>

**Excessive temperature** Use Apron

Dust emission control the inlet damper before entering

#### **Procedure:**

- 1. Isolate the chamber whose differential pressure was low, by closing inlet valve.
- 2. Close the reverse poppet & outlet poppet valve by mechanical isolation.
- 3. Open the chamber inspection/manhole doors at bottom side.
- 4. After ensuring cold condition of the chamber.
- 5. Give clearance for the working crew.
- 6 .Thoroughly check for the damaged bags.
- 7. Don't allow the maintenance crew to carry sharp edged tools inside the chamber.
- 8. Use 24 volts lights for checking of damaged bags.

### RABH BAG REPLACEMENT.

- 9. Locate the damaged bags by the presence of accumulated dust nearby.
- 10. Remove the bottom clamp and top tension hook of the damaged bags.
- 11. Don't keep bags separately on the ground/Open area as the bags are sensitive rough surface/tools.
- 12. Bring only required quantity of bags in box to the chamber.
- 13. First fit the bottom clamp in such away the double fold should cover the ventury tight.
- 14. Top hook to be tightened with tensioning tool.
- 15. Applying pressure required is 3.0-3.5 bar.
- 16. Check the stitching portion of the bag come in line with adjacent the proper fixing of the bags at same height.
- 17. After replacing the damaged bags, check the chamber thoroughly.
- 18. Close the man hole / inspection door after removing the all tools and persons.
- 19. Open the inlet, outlet & reverse poppet valves openings for putting the chamber to normal operation.
- 20. Intimate the CCR personnel.
- 21. Maximum two chambers can be attended at a time without hampering the normal operation of the reverse air bag house performance.

#### **Emergency / Emergency Shut OFF:**

1. If any injury takes place, provide First aid and inform to the Safety department or Call Emergency number 3108/9865152222

## **Records/Annexure:**

Refer LOTO standards/permit & JSA is enclosed below.

**JOB SAFETY ANALYSIS: (JSA)** 

mask.

# **RABH BAG REPLACEMENT.**

7	Tensioning the bag	Leak of clamp	Ensure proper clamping	Hit of pressurized hose	Fasten the hose with the tensioning tool with proper clamps
8	Closing the doors	Fall of door & injury	Use proper PPE & tools	Impact of door on workers while closing	Use crow bars for opening
9	Release the air pressure & open the inlet & poppet valves	Hit of pressurized hose	Clamp the hose & release the air	Sudden release of air on workers	After fastening the hose release the hose slowly
